

HEART SAFE COMMITTEE  
MAY 15, 2025  
MEETING MINUTES

Members Present: Angie Boettcher, Darin Daveau, Cassie Buehler, Eileen Krenz, Dave Krenz, Mary Sue Busch, Linsie Hempleman, and Teresa O'Donnell-Ebner

1. Business program update. Angie reviewed with the Committee communication between Cheri Olson and Megan Wurzel regarding the Heart Safe Community designation window clings. The window clings will have a diamond, gold, silver, or bronze designation. More information on how the window clings will be awarded will be presented at a future meeting.
2. Darin informed the committee that the Crucifixion School will be receiving an AED next year.
3. AED checklist. Angie reviewed an AED checklist created by a city staff member for the city-owned AEDs. The checklist states the location of the AED's, pad date, battery expiration date, install date, brand, and the date they were checked. It was recommended that another column should be added to state who the person responsible is for checking a specific AED. Another recommendation was to place a hang tag on the AED case, like the tags on a fire extinguisher, for a date checked and initialed. Angie will work with city staff on the update.
4. PulsePoint Map. Discussion was had regarding how to post a visual of the PulsePoint map on the city website and newsletter. Unfortunately, the map is not legible in a small format. Angie and Darin will work with staff responsible for the City and Police Department Facebook pages to post the PulsePoint app and encourage citizens to download the app on their devices.
5. 2025 Events: Items to hand out. Discussion was had regarding the various events and event dates where the Heart Safe Committee could have a display table and who would be available to staff the table. There was also a brief discussion on having some items available to hand out such as a stress ball in the shape of a heart with. Further discussion would need to be had about cost and how to pay for items.
