Special Wehicles Ordinance

At the October 20, 2022 City Council meeting, the City Council directed that a special vehicle use ordinance be prepared. A basic draft ordinance is included in the Council packet for Council consideration. This ordinance should be considered in draft form as different regulatory options will be discussed at the City Council meeting for purposes of receiving further direction from the City Council. We will also review the statutory framework for regulating special vehicles use and process for permit revocation.

This draft would essentially allow the operation of golf carts, all-terrain vehicles, or utility task vehicles on city streets with a city issued permit.

You can find the current Comprehensive Plan and Downtown Vision and Strategic Plan on the City's website under City Government, Planning Commission tab.

You can also find the current Bike and Pedestrian Plan and complete Street Ordinance on the City's website under City Government, Bicycle and Pedestrian Advisory Committee tab.

ORDINANCE NO.	

# AN ORDINANCE OF THE CITY OF LA CRESCENT REGULATING THE USE OF MOTORIZED GOLF CARTS AND SPECIAL VEHICLES ON DESIGNATED ROADWAYS WITHIN THE CITY OF LA CRESCENT

The operation of motorized golf carts, all-terrain vehicles, or utility task vehicles is authorized on designated roadways in the City of La Crescent by permit only, pursuant to the authority given to the city by Minnesota Statutes §169.045.

#### **Definitions**

The following terms as used in this section shall have the meanings stated:

- 1. "Motorized golf cart" means a vehicle commonly known as a golf cart, having at least four wheels, and either an electric or a gas motor and designed to be used on golf courses.
- 2. "All-terrain vehicle" or "ATV" means a motorized flotation-tired vehicle of not less than three low pressure tires, but not more than six tires, that is limited in engine displacement of less than 1,000 cubic centimeters and includes a class 1 all-terrain vehicle and class 2 all-terrain vehicle. A class 1 all-terrain vehicle has a total dry weight of less than 1,000 pounds. A class 2 all-terrain vehicle has a total dry weight of 1,000 to 1,800 pounds.
- 3. "Utility task vehicle" or "UTV" means a side-by-side, four-wheel drive, off-road vehicle that has four wheels, is propelled by an internal combustion engine with a piston displacement capacity of 1,200 cubic centimeters or less and has a total dry weight of 1,800 but less than 2,600 pounds.
- 4. <u>"Designated Roadways"</u> means city streets, avenues and alleys not specifically excluded in this ordinance. It does not mean United States or Minnesota trunk highways or Houston County highways or county state-aid highways unless permitted by county ordinance.

In the event persons operating a motorized golf cart, ATV or UTV under this section cannot obtain liability insurance in the private market, that person may purchase automobile insurance, including no-fault coverage, from the Minnesota Automobile Insurance Plan under MN Statutes §65B.01 to §65B.12, at a rate determined by the

commissioner of commerce.

# Special Vehicle Permit Ordinance To Approve Golf Carts and UTVs in La Crecent

City Council Meeting Jan 23, 2023, at 5:30

My name is Jason Oefstedahl. I live at 1200 N 1st St in the City of La Crescent.

I was at the meeting in October when the Special Vehicle Permits for golf carts and UTVs was first proposed. I've since done a lot of research on the topic. My goal is to share this research and be a resource for questions.

**First...** I wanted to know which nearby communities allow golf carts and UTVs and what they charge for a permit.

I don't have a complete list, but it includes:

- 1. Mabel \$15
- 2. Spring Grove \$25 (average 125 permits per year = \$3,125), have online registration
- 3. Caledonia \$25
- 4. Hokah \$20
- 5. Houston
- 6. Rushford \$15 for 3 years
- 7. Lewiston \$15
- 8. Eyota \$25
- 9. Spring Valley \$25
- 10. Trempealeau
- 11. Onalaska \$100 registration fee. 20 MPH or less.
- 12. Red Wing \$30
- 13. Pepin \$25
- 14. Goodview, MN as of a few months ago \$5
- 15. Viroqua, WI as of a few months ago

That tells me it must be popular, and it must be working.

And the permit fees range from \$5 to \$100, with \$25 being the most common.

Second... why consider allowing golf carts and UTVs?

I've been able to see firsthand the benefits and enjoyment they bring...

- My parents live in Spring Grove where they've been allowed for over 10 years
- My father had rheumatoid arthritis and it was hard to get around...
- So, my parents would use the golf cart to go to the friend's house, pull into their yard, and strike up a conversation without having to ever get out of the cart
- They would take the grandkids to the park, the pool, and sporting activities
- Run to the grocery store or hardware store.
- They are more efficient than a car or truck with those short trips
- And They're just fun to drive.

#### Third... what about noise?

- Both gas and electric carts are extremely quiet as they are made for a golf course
- UTVs are a bit louder than a golf cart, but also not nearly as loud as a motorcycle
- May towns have an ordinance that prohibit loud or disturbing operation

#### Fourth... what about safety?

- My sister is the Deputy Clerk / Treasurer at the City of Spring Grove.
- They have allowed golf carts and UTV for over 10 years and there's never been an accident
- There also has not been a citation issued. There have been a few warnings to people driving on streets that are not permitted.
- Many towns have an ordinance that they can't be operated in a careless or reckless manner

## Fifth... how does it benefit the city of La Crescent.

- Citizens of the town are happy and want to stay here.
- It attracts new families who want to move here.
- It brings business to town.
- Reduces wear and tear on roads.
- They're better for the environment.
- The permit fees are a source of revenue for the city.
- As an example, Spring Grove has about 659 households and they issue about 125 permits per year, which is about 19% of the households who have a golf cart.

## Sixth... where can golf carts be driven (UTVs can be driven on County Roads without restriction)

- Most ordinances allow golf carts on Designated Roadways, meaning city streets, avenues, and alleys not specifically excluded.
- That does not include County Roads like Elm St and S 7<sup>th</sup> St, but the state of Minnesota statutes allows "crossing" of County Roads.
- We would want to think about this because there are some areas in the city where you can't directly cross those County Roads
- And Brian Pogodzinski, Houston County Engineer, is willing to help with this.
  - o i.e. can cross by way of the shortest distance between intersecting roads

In summary, I believe you can create ordinances that make golf carts and UTVs safe and quiet while allowing the community the enjoyment of using them as transportation.

Why not try it for a year and see what happens?

Thank you for the time and opportunity.

# Additional Consideration Copperhead Carts moves to La Crescent, MN

https://www.copperheadcarts.net/

I've owned a small part-time business for 5 years with my partner Colin Luz called Copperhead Carts. It is currently located on the south side of La Crosse, WI. Colin is also a city of La Crescent resident.

We are looking to relocate Copperhead Carts and we're strongly considering La Crescent, MN. We've looked at locations such as Commodore, Allan McCormick's building at 190 Main, Preferred Auto Care, and the Code 45 building. We may move to La Crescent regardless of the Special Vehicle Ordinance as we attract business from Minneapolis to Chicago. But allowing golf carts in La Crescent would make moving to La Crescent even more attractive.

Being the owner of Copperhead Carts for 5 years, I have a unique perspective and knowledge regarding golf carts.

From my perspective, golf carts have evolved to the point where we rarely, if ever, sell a golf cart for use on a golf course.

- Every golf cart we sell is either for use at a campground or as a means of transportation in towns and cities where they're allowed.
- Because of this evolution, manufacturers have also started manufacturing golf carts they call "street ready" with high/low headlights, taillights, blinkers, brake lights, and horn.
- The golf cart market is predicted to grow a lot, 6% per year through 2028 (30%).

## Get carts on your community roads

## Tell your local leaders: It's time for carts!

Indiana allows golf carts on public roads – with some limitations – as long as the driver is licensed and the cart is "street legal." But it leaves it up to each locality to give permission.

More and more Indiana towns and cities are passing laws to allow golf carts on their streets. But many haven't yet done so. If you live in one of these communities, speak up! Tell your elected officials about all the benefits that golf carts can bring:

- Carts encourage old-fashioned social interaction. Unlike an automobile, which
  isolates its occupants, carts are open to the air, so you can wave at neighbors as
  you pass by. Want to stop and chat? Easy, just pull over carts take up far less
  space than a car, and they're easy to park.
- They're way more affordable. Buy an electric-powered car for as little as \$4,500 used or \$8,000 new. And that's a compelling reason to purchase a cart for short trips and leave the truck in the driveway.

- They're perfect for seniors, people with disabilities, and others who don't or can't
  drive regular vehicles. Highly maneuverable and easy to operate, golf carts can
  help people maintain their independence and mobility.
- They're better for the environment. Electric carts are "zero emissions" vehicles and can replace cars for stop-and-go trips to nearby conveniences. These short trips are the ones that create the highest amount of pollution from cars.
- Carts can reduce traffic congestion, eliminate the need for larger parking lots, reduce speeds in your downtown areas and cut down traffic noise.
- They're safer to drive than cars. And that makes the streets safer an important consideration when inexperienced or elderly drivers are on the road.
- Cart-friendly communities offer prospective residents another great reason to move to town. And that's a big plus.
- Carts can help foster a better quality of life. Carts slow the pace of living, are fun
  to drive and make people happy. And when people are happy, their neighborhoods are friendlier and more closely knit. And great neighborhoods make your
  town a better place to live.

So, let's get your community on the road to an enhanced, cart-friendly future. Contact your local officials today.

DATE: January 20, 2023 RE: Wieser Pavilion Bids

In October of 2022 the following bid was received for the Wieser Park Pavilion Improvement Project:

• Wieser Brothers General Contractors - \$622,500.00, with an in-kind donation of \$226,300.00

In November of 2022 the City Council approved an extension of the time frame for approval of the bid by an additional 60 days. The contractor was agreeable with the time extension.

We are now suggesting that the City Council approve an extension of the time frame for approval of the bid until the February 13, 2023 City Council meeting. The contractor is again agreeable with the extension.

The sponsors of the project have proposed a modification to the plans for the pavilion that will include the installation of overhead doors in the openings and heat so that the facility will have the option to operate year round. These changes will add approximately \$93,000 to the base bid for the project. The added costs will be addressed through a change order with the contractor.

For City Council information, to date the City has received \$505,935.37 in donations towards the improvement project.

The additional time between now and the next City Council meeting will allow the project sponsors time to continue their fund-raising activities while also providing the contractor with additional time to obtain the necessary building approvals that are required for the project to proceed.

RE: Wieser Park Improvement Project

Attached for review and consideration by the City Council is an engineering agreement for improvements at Wieser Park. Also included is a proposed site plan for the park improvement project.

The engineering agreement includes the overall stormwater improvements for the park, and the construction of the new parking lot. We are proposing that the costs for these improvements will be paid for through the revenue generated from the sale of the 9 or 10 lots that are included in the City's Horse Track Meadows North development.

We intend to present a separate engineering agreement in the near future regarding the pickleball courts that are planned for Wieser Park. We will do this once the costs for the stormwater improvements and parking lot are more clearly defined, and the revenue from the sale of the City property is better known.

RE:

2023 License Renewal Application

The City has received the completed On-Sale Liquor license renewal application from the Best Western Plus / La Crescent Hotel Group.

The application appears to be in order, and I would suggest that the City Council approve the license renewal application so it can be forwarded on to the Minnesota Department of Public Safety.

RE: Safe Routes to School Boost Grant

The city was awarded a SRTS Boost grant by the Minnesota Department of Transportation. The grant covers all three schools within the community. Safe Routes to School Boost grants are intended to help boost Safe Routes to School efforts! Through these grant awards, the Minnesota Department of Transportation (MnDOT) supports communities with existing Safe Routes to School (SRTS) plans, or other comprehensive SRTS approaches, in advancing non-infrastructure strategies for schools that support making it safe, easy and fun for students to walk and bicycle to school. The "Boosting Biking and Walking From River to Ridge" grant awarded to La Crescent covers project coordination, bike fleets, bike trailer, bike safety education and equipment, promotion of Safe Routes to School programs, and a bike rodeo. The SRTS Boost grant requires a resolution to enter into an agreement with the Minnesota Department of Transportation. The grant is for approximately \$28,000. The SRTS Boost grant requires no matching funds from the city.
