ITEM 5 – MODIFICATION OF RESOLUTION ESTABLISHING SANITARY SEWER AND WATER SERVICE CONNECTION CHARGES FOR 2020 HICKORY LANE/2020 UTILITY EXTENSION IMPROVEMENT PROJECT

City Administrator Waller reviewed with City Council a map that shows three properties located along County Highway #6, in close proximity to the Horse Track Meadows/Hickory Lane improvement project. City Council also reviewed the Resolutions that were adopted in September 2020 regarding connection charges for properties in the area of the improvement project. The property at 1727 is in the City and is in need of City services. The properties at 1703 and 1755 are in the Township. In order to provide City services to 1727, it is necessary for one or both of the property owners at 1755 or 1703 to provide an easement to the City. The property owner at 1703 has already provided the City an easement. Due to the location of an existing structure, the width of the easement is limited and will only allow for service to be provided to the properties at 1727 and 1703. The property owner at 1703 has indicated that they will annex to the City and connect to City services. The property owner at 1755 has been in discussion with the City on providing an easement and has indicated that they will sign the easement. This alignment will allow for City services to be provided to each of the three properties. Currently, the easement has not been signed.
The property owner at 1755 has indicated that they will not annex to the City and that they will not be connecting to City services. It was recommended to City Council to adopt new resolutions, and shift the property at 1703 so that their sanitary sewer connection fee will be reduced from $19,149.23 to $18,394.23 and recommended the same for the property at 1755, if they sign the easement.

Following discussion, Member Williams introduced the following amended resolution and moved its passage and adoption:
