The following members were present: Gregory Husmann, Dave Hanifl, Jerry Steffes, Anna Stoecklein, Mike Welch, Dave Coleman, and Linda Larson. City Attorney Skip Wieser, Sustainability Coordinator Jason Ludwigson, and Building/Zoning Official Shawn Wetterlin were also in attendance.

1. Chair Hanifl asked for a motion to approve the minutes from the March 2nd, 2021 meeting.

Following discussion Member Welch made a motion, seconded by Stoecklein to approve the minutes.

Upon a roll call vote, taken and tallied by the Building Official, all members present voted in favor.

Coleman - Yes 
Welch – Yes

2. At 5:35 the Planning Commission held a Public Hearing to consider the La Crescent Elementary School Administrative Subdivision Application.

Kevin and Tim explained plans for the school garage including storage of equipment. The school district plans to have heating and water as a part of the school garage.

The public hearing closed.

Following discussion by the planning commission Member Steffes made a motion seconded Welch to recommend approval of the administrative subdivision application.

The motion included the following findings in Support of Approval of Lot Adjustment:
1. Request will not alter the essential character of the locality. The property owner proposed to use the property in a manner that is reasonable.

The preliminary sketch calls for seven additional single family lots. Planning commission members asked questions related to the current zoning for the area presented as Horse Track Meadows West. Additional questions around the proposed easement for the hiking trail access to the north side of the property and the size of a multi-family building that would be allowed under the current zoning for Horse Track Meadows west. The developer proposed reducing the current easement from 20' to 10'.

Review of Preliminary Plat

Dear Mr. Waller:

We have reviewed the Preliminary Plat as requested and offer the following comments.

Review Comments

1. The applicant must secure all necessary permits before construction begins including a sanitary sewer extension permit (MPCA), water main extension permit (MDH) and NPDES storm water permit if required. The Owner, or their representation, will be responsible for permit compliance.

2. Provide gross and buildable lot acreages.

3. The final grading plan and utility plan showing the proposed water, storm sewer, and sanitary sewer should be submitted with the final plat and plan submittal. Grading plan provisions should ensure that drainage crosses no more than one adjacent lot. If drainage crosses more than one lot, a drainage easement should be required. The grading plan should show proposed building locations, styles, and floor elevations.

4. An Engineer’s Opinion of Construction Costs and a proposed construction schedule should be submitted for this project for inclusion in the Development Agreement as part of the Final Plat submission. Construction observation fees charged to the Developer will be calculated based on the anticipated construction schedule and incorporated into the 429 assessment process.

5. Sanitary sewer and watermain connection fees and cost participation will need follow the draft development agreement between the City and the Owner.

We recommend approval of the preliminary plat conditional upon the above items being addressed during the final plat submittal.
Please contact me if you have any questions.

Sincerely,

**WHKS & co.**
