

BOULEVARD TREE APPLICATION 2026

The city was awarded a ReLeaf grant by the MnDNR in 2023. We have funds from the grant to provide trees to residents for planting in the boulevard in spring of 2026. **Tree must be planted in the boulevard.** If you are interested in having a boulevard tree planted in your property, please fill out the boulevard tree application. If selected the city will prep the site with Gopher State One Call prior to the planting in spring of 2026. **Once planted the boulevard tree is the responsibility of the homeowner.** The city will provide a free consultation with one of the city's certified tree stewards to review proper planting, watering, pruning, and mulch for the tree. Please note trees can't be planted where overhead utility lines are present.

Name: _____

Address: _____

Telephone #: _____

Check the box with your choice from the options below:

- Greenspire **Linden (#10 gallon potted) 10 available**
- Quercus alba **White Oak (#10 gallon potted) 15 available**

Please retain this permit as written documentation of our agreement. The city will call Gopher State One Call 1-800-252-1166 to locate any utilities

- ❖ We will use the following criteria to select applications for boulevard trees if we receive more applications than the number of trees available.
 1. Boulevard trees awarded to properties who currently have no boulevard trees or properties with fewer boulevard trees.
 2. Geographic distribution of boulevard trees within the city.
