

La Crescent, MN Contractor Continuing Education

This year's Contractor Comb 2016 takes an in depth look at the "other" new code requirements by answering the following questions.

"What is the price difference in using conditioned attic space to run the HVAC ducting and equipment compared to the new insulation requirements and blower testing of duct work required if the HVAC is outside the building envelope?"

"I don't care about 16 different ways to build a wall; can you tell me how to frame the house following the new braced wall requirements using the three most popular Minnesota framing methods?"

"Are Minnesota Remodelers really getting fined by the EPA for not registering their firms with the EPA?"

"What about the rumor that the EPA is changing the requirement for RRP refresher training?"

"Local zoning and the Minnesota Building Code, which takes precedent on my jobsite?"

"How do I craft a winning construction contract that complies with all the Minnesota statutory requirements?"

Friday, February 12, 2016

**American Legion
509 N. Chestnut St.
La Crescent, MN. 55947**

**Class starts at 7:30 AM
ends at 2:30 PM**
